Dear Patient,

RE: (Bulk Billed) BONE DENSITY SCREENING FOR OSTEOPOROSIS

As you may aware, the older we get, the more chance we have of developing Osteoporosis.

We would probably would not know we have this condition until is was too late. A simple fall could have devastating consequences.

OSTEOPOROSIS IS PREVENTABLE AND TREATABLE

We have been fortunate enough to secure the services of Osteoporosis Solutions Bone Density Testing Machine.

They will be located at the back of the surgery in **Unit 7 / 160 Scott St Helena Valley**.

Scanning dates will be Tuesday 5th November to Monday 11th November 2024.

We are able to offer our eligible patients over the age of 70 a test, completely covered (Bulk Billed) by Medicare, with no out of pocket expense.

This test is a non-invasive, short and painless scan. The report will be reviewed by your doctor who will recommend any treatment if deemed necessary.

Please contact **Helena Valley Medical Centre on 9255 1161** to organise an appointment with your usual GP for a referral prior to your scan.

You will also need to phone **Osteoporosis Solutions on 9472 1904** to book your scan appointment.

****If you have had a Bone Density Scan at PRC Midland within the last 5 years, please make an appointment with your usual GP to confirm eligibility.**

We hope that you will consider taking advantage of this fantastic opportunity.

Kind Regards
Administration
